

### **REMARKS**

Claims 10-12 and 24-26 remain in this application. As suggested by Examiner, Claims 10 and 24 have been rewritten in independent form including all of the limitations of their base claim(s) and any intervening claims. Claims 1-9, 13-23, and 27-29 have been canceled. Applicants respectfully traverse the drawing objections under 37 CFR 1.83(a) and claim rejections under 35 U.S.C. 102. Applicants, however, have made the above-shown amendments obviating such rejections in order to advance the prosecution of this case.

### **DRAWINGS – OBJECTION UNDER 37 CFR 1.83(a)**

On page 2 of the Office Action mailed August 31, 2004, Examiner stated:

The drawings must show every feature of the invention specified in the claims. Therefore, the “curved path having an increasing radius” of claim 3, the “chain links” of claim 6, and the “metallic material” of claim 9 must be shown or the feature(s) canceled from the claims(s). No new matter should be entered.

Applicants respectfully traverse the objection to the drawings under 37 CFR 1.83(a).

Such rejection, however, is obviated by the cancellation of Claims 3, 6, and 9.

In light of the above, Applicants respectfully request that Examiner withdraw the objection to the drawings under 37 CFR 1.83(a).
